

Collaboration FAQs Explained

What is Collaboration?

"A style of direct interaction between at least two co-equal parties voluntarily engaged in shared decision making as they work toward a common goal" (Friend & Cook, 1992, p. 5).

Why Collaborate?

The achievement of all students improve (Ronfeldt et. al, 2015).

Who Does What?

Contribute from one's area of expertise.
Content teachers share content expertise; language teachers offer ways to scaffold and differentiate language.

How to Collaborate?

Educators can collaborate by co-planning learning experiences, co-create assessments, and co-teach lessons.
