

# Co-Teaching Questions

## Co-Teaching Models

## Co-Teaching Questions

## Co-Teaching Actions

### Lead-Support

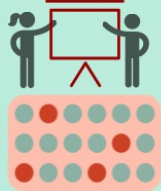

What is the text used to teach the content?

Make the text, oral instructions comprehensible

What will students have to do to demonstrate understanding?

Scaffold for comprehensible output

### Team Teaching

Who will set the context?

Use visuals

Who will do the modeling?

Explicitly teach vocabulary

How will the content be chunked?

### Parallel Teaching

What content needs to be taught?

Model the process

Which students will be with which teacher?

Segment the content

Make academic language explicit

### Enrichment Teaching

What skills or concepts have to be re-taught or extended?

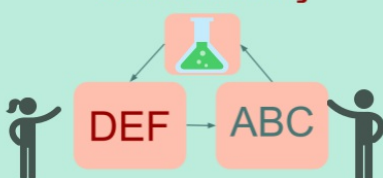

Offer paced practice

Who are the students that need further extension or reteaching?

Provide another context

Differentiate the process, content, or product

### Station Teaching

Who will be teaching what content?

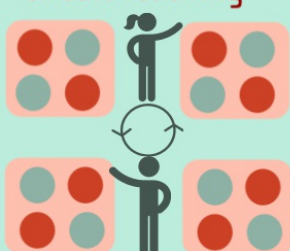

Provide guided practice

How are the stations connected?

Teach content-specific language

How will student rotate?

### Circuit Teaching

What content do students need to understand?

Guide collaboration

What skills do students need to demonstrate?

Differentiate conferences

How will the students be grouped?

Use questioning strategically

Help students apply content-specific language
