

# Lighting the Spark *to Speak*

Adobe Spark is a free graphic design app that allows ELs to create professional quality posts, webpages, & videos.

Adobe Spark encourages ELs to actively engage with content.

It fosters critical thinking (organizing, evaluating, synthesising, & analyzing).

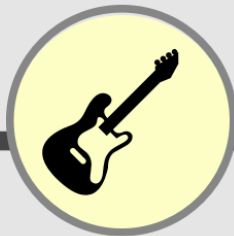

ELs cultivate academic language by rehearsing formal language.

Collect images & write a script to narrate the video

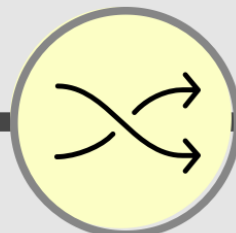

Choose a video template

Manipulate the theme, music, & layout

Upload images & text

Sequence the slides

Publish video
