SAMR: Meaningfully *Integrating Technology*

Enhancing Learning

Substitution

Technology directly substitutes a non-technology tool.

The task remains unchanged.

The tech tool doesn't alter the way ELs interact with the task.
Handwritten vs Google Doc

Augmentation

Technology directly substitutes a non-technology tool.

The task remains unchanged.

The tech tool encourages the use multimedia.

**Digitally brainstorming**

Transforming Learning

Modification

Technology directly substitutes a non-technology tool.

The task is modified.

The tech tool facilitates collaboration.

Co-compose with others on Google Docs

Redefinition

Technology directly replaces a non-technology tool.

The task is significantly redesigned.

The tech tool empowers ELs to create something that was previously inconceivable.
