

Reference for Tan Huynh

On the personal recommendation of Jon Nordmeyer, WIDA's Director of International Programs, we invited Mr. Tan Huynh to provide an ELL inservice to all of our teachers in November 2017.

Tan's preparation was outstanding and thorough. He shared his presentations with me a week before the workshops. He also offered to visit our school the day before his presentation to provide specific support to our ELL specialists and to share his school's practice with our administration in providing ELL support.

Notable was Tan's energy during the workshops which were highly interactive and practical. Three hours sped by so fast and Tan engaged us and designed the sessions in such a way as to have us moving around and collaborating as he checked our understanding of the ELL strategies he was presenting. Teachers were able to leave with new approaches that they could apply in their classrooms the next day to support their ELL learners.

I highly recommend Tan as a knowledgeable, effective, charismatic and articulate ELL consultant with practical experience which makes sense to busy teachers.
